Summary:

Proficient **Full Stack JavaScript Developer** with over 2 years of experience in designing and developing web applications. Strong foundation in **JavaScript** and modern front-end frameworks such as **React.js**, **Next.js**, and **TypeScript**. Adept at creating dynamic, responsive user interfaces and collaborating remotely with cross-functional teams. Backend expertise in **Node.js** and **Express.js**, with hands-on experience building **scalable RESTful APIs** and managing databases using **MongoDB** and **PostgreSQL**. Skilled in real-time communication with **Socket.io** and secure authentication using **NextAuth.js** and **jsonwebtoken**. Passionate about writing efficient, maintainable code and solving complex technical challenges.

Objective:

Seeking a challenging remote JavaScript Developer position where I can leverage my extensive skills in **JavaScript** frameworks, **frontend development**, and **backend technologies** to contribute to innovative web applications and drive impactful solutions. Eager to work in a collaborative, fast-paced environment, while continuing to learn and grow professionally..

Technical Skills:

Frontend:

- HTML, CSS, JavaScript, **React.js**, **Next.js**, **TypeScript**, **Tailwind CSS**, **Material-UI**, React Paginate

Backend:

- **Node.js**, **Express.js**, RESTful APIs, **Nodemailer**, **jsonwebtoken**, Express-Async-Handler

Database:

- **MongoDB**, **PostgreSQL**, **Prisma**

Authentication:

- **NextAuth.js**, **Clerk**

Communication:

- **Socket.io**, RESTful APIs

Build Tools:

- **Webpack**, Babel

Version Control:

- **Git**, GitHub

Work Experience:

Full Stack Developer & Online Instructor

As Code Elevate Solution (Remote)

April 2024 – Present

- Developed a school management system, streamlining result processing and attendance tracking for multiple schools.
- Created scalable RESTful APIs for efficient data handling and integrated real-time features using Socket.io.
- Collaborated remotely with teams, ensuring the smooth deployment of new features on Vercel.

Full Stack Developer & Online Instructor

Torbata Computer Training School, Abuja (Remote)

Jan 2024 – Present

- Trained students in both frontend and backend web development, focusing on real-world applications of React.js, Node.js, and MongoDB.

Projects

School Management Software: A versatile web application designed specifically for schools to streamline the management of student results and attendance.

Widely adopted by many schools in Abuja, this software offers:

- **Comprehensive Result Management:** Efficient recording, calculation, and storage of student results.
- **Attendance Tracking:** Seamless management of student absence days for accurate records.
- **Automated Report Generation:** Detailed performance and attendance insights with minimal manual effort.
- **User-Friendly Interface:** Easy adoption by educators, ensuring a smooth transition to the new system.
